* 24"x24" is only stocked in Rock Candy Matte | **Polished for Commercial - Wall Only

Product photography and samples are to be used as a general guide—colors and markings may vary and should be determined from actual product. All sizes listed are nominal, not actual. Not all colors are available in all sizes and finishes, please inquire. Tile larger than 18"x18" should not be installed in a brick pattern—use straight-lay, 25% or 33% offset patterns instead. We recommend using a grout release on unglazed tile before grouting to assist in grout removal.
